

## REMARKS

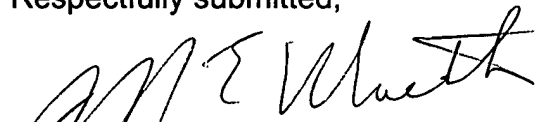

It was brought to Applicant's attention in the parent application, U.S. Patent Application Serial No. 10/174,194 that there was a need to correct the inconsistencies with the drawings and the Brief Description of the Drawings in the specification. Accordingly, since the present application refers to the identical Specification as the parent application mentioned above, Applicant has added a section in the Specification containing the title "Brief Description of the Drawings" along with seven paragraphs describing the drawings.

With this added information, the inconsistency in the specification and the drawings should be corrected.

Applicant believes no fee is due with this communication, however, if there is a fee due, the Commissioner for Patents is authorized to charge our PTO Deposit Account No. 13-4892.
